Professional Summary | Highly motivated Full Stack Web Development candidate and B.E. Computer Science student with a 9.48 CGPA. Proven expertise in developing robust applications using Java and Python, with a strong focus on backend logic, database management, and frontend integration. Adept at automating complex workflows and building scalable software solutions through modular programming and efficient data structures.

EDUCATION

Sant Longowal Institute of Engineering and Technology

July 2023 – July 2026

B.E. (Computer Science and Engineering - Honours)

9.48 CGPA

Sant Longowal Institute of Engineering and Technology

July 2020 – July 2023

Diploma in Computer Science and Engineering

9.69 CGPA

Relevant Coursework

- Data Structures and Algorithms (DSA)
- Database Management Systems (DBMS)
- Internet of Things (IoT)
- Data Mining and Artificial Intelligence
- Web Technologies and Software Development

EXPERIENCE

Thapar Institute of Engineering and Technology

June 2025 – July 2025

AI/ML Intern

Patiala, Punjab

- Engineered automated data preprocessing pipelines using Python for null handling, encoding, and scaling, ensuring high-quality datasets for model deployment.
- Accelerated development workflows by designing reusable functions for repetitive preprocessing tasks, significantly reducing manual intervention and processing time.
- Optimized predictive performance by training and benchmarking multiple machine learning models (Classification, Regression, Clustering) using scikit-learn to achieve peak accuracy.

PrernaGati Technologies

June 2024 – July 2024

Python Intern

Patiala, Punjab

- Architected a modular Command-Line Banking System implementing core functionalities including secure account creation, deposits, withdrawals, and account deletion.
- Developed robust application logic by applying Object-Oriented Programming (OOP) principles and advanced exception handling to ensure system reliability.
- Optimized data storage and retrieval by leveraging complex data structures such as lists, sets, and dictionaries within a secure application environment.

PROJECTS

Handwriting Recognition Tool | Python, OpenCV, Tesseract OCR

- Developed a digital handwriting recognition system that automates the conversion of handwritten images into editable text formats.
- Streamlined image processing using OpenCV for grayscale and thresholding, which enhanced text extraction precision across various sample datasets.

Currency Converter Web Application | Java, Servlets, Applets, APIs

- Architected a dynamic full stack web application to facilitate real-time currency conversion across global markets.
- Integrated live exchange rate updates using Java Servlets and API-driven logic to ensure high data accuracy and real-time responsiveness.
- Delivered a seamless user experience by designing an interactive interface using HTML, CSS, and backend Java integration.

TECHNICAL SKILLS

Web Development: HTML5, CSS3, Java Servlets, Applets, Web APIs, AJAX, Frontend Development, Backend Development

Programming Languages: Java, Python, C, C++, SQL

Frameworks & Libraries: Scikit-learn, Pandas, NumPy, TensorFlow, PyTorch, Keras, OpenCV, Tesseract OCR

Tools & Platforms: Git, GitHub, VS Code, Visual Studio, PyCharm, IntelliJ, Linux

Core Competencies: Data Structures, Algorithms, Database Management (DBMS), Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), Artificial Intelligence (AI), Machine Learning (ML)

Soft Skills: Adaptability, Time Management, Analytical Problem-Solving, Team Collaboration

Areas of Interest: Software Development, Full Stack Web Development, Artificial Intelligence, Machine Learning, Data Science

Extracurricular

- Core Committee Member, Madhuram'25
- Domain Coordinator of Plexus, TechFest'24
- NCC Cadet (National Cadet Corps)
- NSS Volunteer (National Service Scheme)
- Active Member, SLIET Software Development Club

ACHIEVEMENTS

- GATE 2025 Qualified (Computer Science and Information Technology)
- Recipient of Best Domain Award, TechFest'24
- Secured 1st Position in Dummy Company Contest, Internwell
- Secured 3rd Position in Genesis, TechFEST'23
- NVIDIA Deep Learning Institute Certification (Deep Learning Fundamentals)
